

Combination Electrodes with Integral Temperature Sensors

pH/TEMPERATURE ELECTRODE COMBINATION

This combination epoxy body pH electrode is constructed with a built-in temperature sensor (ATC). This electrode will automatically temperature compensate, or indicate temperature and pH, on most any ATC/temperature pH meter. Two separate electrodes have been combined into one streamlined design for convenience and ease of handling. When ordering, select the temperature element and connectors compatible with your pH meter from the selection guide and note the corresponding part number. Also, indicate the cable length desired with the electrode.

SPECIFICATIONS

| Part No. | Description | pH Range | Temp. (EC) |
|----------|------------------------------------|----------|------------|
| 5733528 | Sealed Ag/AgCl single junction | 0 to 13 | 0 to 80 |
| 5733528R | Refillable Ag/AgCl single junction | 0 to 13 | 0 to 80 |
| 5733728 | Sealed double junction | 0 to 13 | 0 to 80 |
| 5733728R | Refillable double junction | 0 to 13 | 0 to 80 |
| 5733928 | Sealed Calomel single junction | 0 to 13 | -5 to 80 |
| 5733928R | Refillable Calomel single junction | 0 to 13 | -5 to 80 |

**Standard cable length is 3 feet.

TEMPERATURE SENSOR ORDERING GUIDE

Select model of pH meter and indicate sensor type in the eighth, ninth and tenth digit of the part number, ie... #5773528A1.

| Part No. | Meter Model | Sensor Type |
|----------|-------------------------------------|--|
| A1 | Orion | 230A, 250A, 290A, 420A and 520 (Triode style) |
| A2 | Orion Jenco, Baxter & Markson | SA230, SA231. SA270. SA250, SA520. SA501, 720 671P, 672P, 602, 6071R, 6072, 6091R, 620I, 6209 and 6301 |
| A3 | Hanna | H18424, H18314, H18520, H18521, H18417 and H18418 |
| A4 | Schott | 837 and 838 |
| A5 | Cole-Parmer | 05850-00, 05983-00 and 05984-50 |
| A6 | Fisher | 955, 640 and 640A |
| A7 | Fisher | 1001, 1002 and 1003 |
| A8 | Fisher | 950, 925, 915, 825MP, 815MP, 805MP and 750 |
| A9 | Fisher | 930, 910, 830, 810, 525, 325, 630, 620, 610A and 230A |
| A10 | Beckman | PH110, 11, 12, 32, 34, 40, 45 and 50 |
| A11 | Beckman | 43, 70 and 71 |
| A12 | Corning | 105 |
| A13 | Corning | 5 and 6 |
| A14 | Corning | 610A, 620, 109, 110, 111, 112, 119, 120, 125 and 130 |
| A15 | Corning | 4, 135, 140, 145, 150, 155, 215, 220, 240, 245, 250 & 255 |
| A16 | Metrohm | Current Metrohm (with "F" connector) |
| A20 | Special | Specify |
| A21 | Eutech, Oakton | Cyberscan, pHscan |
